Raglan Garden/Art Ramble, 19.11.22

46 Bow St, Raglan, Ph 027 600 6336

**History:** 15 months ago after our house was completed we started to develop the garden, first contouring the Raglan clay, building the stone walls and fences, adding lots of compost, heart, mind and muscle.

**Philosophy:** We feel Gardens help to make a house a joyful Home by softening, refreshing, and surprising us. Our tribute to life and death in nature, nurturing our hearts and minds, feeding our bellies, made together by our hands and aching backs.

*Wild and free, bees and bugs and butterflies*

*Flit and frolic, sucking nectar for their tribe*

*Wild west wind, whips and bends*

*Breaks, Nature gives and takes*
